HARDY TREES & PLANTS for EVERY PLACE & PURPOSE

1916

Autumn Edition

Wholesale Catalog

THE WILLIAM H. MOON COMPANY MORRISVILLE, PENNSYLVANIA

PHILADELPHIA OFFICE, 21 SOUTH TWELFTH STREET THE MOON NURSERY CORPORATION, WHITE PLAINS, N. Y.

Entrance Gateway to Moons' Nurseries, located on the Yardley Road, just off the Lincoln Highway, a mile and a half distant from Trenton, N. J.

### Facts of First Importance

HAT you want to know at the very start is: Why should you buy your plants, shrubs or trees of this Company in preference to others? Is our stock any better? Are we able to give you superior service?

That our stock is better, the service we give superior, and the prices reasonable, will be further apparent to you from even a brief scan of what follows.

#### Size and Location of Nurseries

T Morrisville, Pa., which is just across the Delaware River from Trenton, N. J., we have nurseries of Four Hundred and Fifty acres that are devoted entirely to the growing of Ornamental Trees, Shrubbery and Hardy Plants for Every Place and Purpose. These nurseries have been established for fortyfour years, but the Moon family started selling nursery stock one hundred and forty-eight years ago. A striking feature of them is the assortment of almost 2,000 varieties; and a wide range of sizes from which to choose. wonderful fertility of this soil of ours produces a stock of great vigor and uniform devel-opment. Nearly all our output is raised in these nurseries and freshly dug for each order. We maintain no storage cellar

Winter. Whatever you may want, it's no little satisfaction to feel that "Moons' likely have it." This means much to you, especially when ordering during the Spring rush, when every MORRISVILLE day counts.

#### Assortment of Varieties

you should walk up. and down the hundreds of rows of plants in our nurseries, until you had been over them all, you would have gone considerably more than nine hundred miles and seen some two thousand or more different varieties of trees and shrubbery. You would be

thoroughly convinced of the appropriate title

of this catalogue, "Hardy Trees and Plants for Every Place and Purpose." In such a collection there is the possibility of getting direct from us the entire assortment for the smallest or largest plantings. This overcomes the disadvantage of numerous small shipments coming from different places, which delays one's planting.

#### **Ample Growing Space**

OU would have particularly noticed that the stock was not crowded. Frequent transplantings and wide spacing have given each specimen ample room to spread out as well as grow up.

#### **Superior Roots**

F you had chanced upon some of our men when they were digging shrubs or trees, you would have noticed what exceptionally large masses of fibrous feeding roots each plant possessed, instead of the coarse, long ones which result from lack of transplanting or root training. The foreman would have pointed out to you that this highly developed "root system," as he calls it, has much to do with successful transplanting and quick growth. Every order is freshly dug. This assures you that the virile strength that the

roots possess has not dried away from being out of ground over Winter, or otherwise subjected to long exposure.

It will be noticed that the location of our nurseries is directly opposite Trenton, N. J.

The prices in this catalog cover all packing costs and are f. o. b. our depot. With many nurseries uncertain "extra charges" are made for packing.

Every plant listed herein we shall have in stock when the season opens. More than 95 per cent. of it we raise ourselves. Moons' are growers, not jobbers, and dig freshly as ordered the stock which they sell.

Trees grown closely together "shoot up" become spindly and cannot develop a good spread of branches. The roots also suffer, making transplanting un-

by our properties,

that extend for

one and one-quar-

ter miles on either side of this thor-

By train we are

easily accessible,

being only ninety

minutes from the

P. R. R. depot in

New York, and

sixtyminutes from

Broad St., Philadelphia. Take fast

oughfare.

A common method in nurseries is to grow trees 3 ft. x 3 ft. apart. In this way 4840 are grown per acre. Such crowding makes slender, spindling trees.

With Moons', the practice is 4 ft. x 3 ft. while small, then 8 ft. x 6 ft., which reduced the number per acre to 3630. But obviously trees given so much space are best.

#### Culture

NE of the things that would have particularly impressed you in that same walk through the nurseries would have been the high state of cultivation of the entire acreage, and the evident systematic pruning, spraying and individual care that each tree or plant receives.

#### Packing Care

HEN on the way back to the office, if you had looked in at the packing rooms you would have noticed that all the piles of trees and plants, as they were being assembled for different orders, were very carefully handled, and as far as possible protected from exposure or drying breezes.

With all this care and expense of labor and packing material—apparently used without stint—you would have wondered how we could afford to do it in such a liberal way and still make no special charge for packing; as you know is customary with many nurseries.

#### The Ways to Reach Us

EE map, page 2. By automobile we are but one and one-half miles distant from Trenton, on the Pennsylvania side of the Delaware River. The famed Lincoln Highway crosses at Calhoun Street bridge, Trenton, and passes within one-quarter mile of our nurseries. A turn west at the Yardley Road (road along which trolley passes) leads

of root growth as a result of the trees having plenty of room to grow in.

Our Home Office, located at the nurseries

express trains for Trenton on the Pennsylvania Railroad. If you will let us know of your intended coming, our conveyance will meet you at the station; otherwise trolley connections can be made at Warren and Hanover Streets for Newtown or Lambertville cars, passing our entrance but ten minutes distant.

By Philadelphia & Reading Railway we are reached from Trenton, N. J., or Yardley, Pa., our nurseries are but one and onehalf miles away, and also easily reached by trolley.

#### Personal Inspection of Our Nurseries

F course, our customers can't allfind it convenient to visit us; but we wish they could.

A visit will prove not only interesting to you in revealing the

almost infinite variety of color, flowers and plant forms that are here available for lawn planting, but be delightfully educational as well. How, for instance, can we in word descriptions do anything near justice to the varying shades of foliage, ranging as they do from golden to deep grayish greens? To see them in their varyingly interesting foliage is a revelation.

There is also a certain satisfaction in seeing the plants you need; and in picking out the identical ones you want. So we extend a hearty invitation to visit us. Come any time except Sundays.

### Our Terms

Location and Shipping

UR shipping facilities are exceptionally good. We are located just across the Delaware River from Trenton, N. J., which has freight and express service over the Philadelphia & Reading Railway, connecting with the Baltimore & Ohio, and over the Pennsylvania Railroad, which radiates in five directions. Besides its direct route to New York and Philadelphia the Belvidere division runs toward the north, the Amboy division goes into New Jersey, the "Trenton Cut-off" takes western freight, eliminating delay or change at Philadelphia. There is boat service from Trenton to Philadelphia, where connections include Boston, Providence, Baltimore and southern points.

Freight is considered a safe and satisfactory means of shipment for nursery stock under most conditions. Perennials however should always be shipped by express. Owing to the congested conditions of all eastern railroads this Spring, it may be best to allow us considerable latitude in routing shipments, though ordinarily we prefer that customers

express their preference.

Within certain distances we are prepared to deliver by motor truck or wagon. These deliveries are, however, matters for special arrangement, both as to time for delivery and as to charges.

#### Prices

HE prices in this catalogue cancel all previous prices and are for first quality, vigorous, healthy stock, that will be freshly dug for each order. There is no additional charge for packing, as is the practice with many nurserymen. All prices quoted are net and f. o. b. our depots. Reduced prices are given "per 10" and "per 100" on most articles offered. Thus, if a rate "per 10" is quoted, five or more plants of that grade and variety may be had at that

rate. Where the price "per 100" is given, twenty-five or more plants of that grade and variety may be had at the per 100" rate. In the few cases where a"per 1000" rate is given it is applicable to purchases of two hundred and fifty or more of that grade and variety.

Personal selection of the stock at our Nurseries is invited, and when selections are so made the prices will be as published in our current catalogue, excepting in cases of special or unusual specimens, which will be charged according

to their individual value.

#### **Payments**

ASH with order, excepting to persons who satisfy us as to their financial responsibility. Persons unknown to us who desire to open a charge account will get quicker delivery if they accompany orders with financial references that will enable us to base credit relations.

Settlements of all accounts are due when bills are rendered, and payments are expected promptly. An abatement of 2% may be taken if payments reach us within ten days from date of invoice.

#### On Guaranteeing and Presentation of Claims

HEN stock is sold at wholesale prices, as given in this catalogue, we assume no responsibility for the failure of our product to grow, although, of course, we endeavor to exercise every care that will cause them to transplant successfully. The responsibility that we do, however, assume is the safe arrival of our goods at destination; beyond this we have no control and therefore should not and are not to be held liable. Claims for shortage, poor arrival of shipments and others of whatever nature must be presented within ten days after the arrival of the consignment.

# Moons' Evergreens are Renowned for their Excellence of Quality

A block of White Spruce (Picea Alba) in our Nursery. Ask us to fill your order from this block. They run from 4 to 8 ft. high.

THIS NURSERY has for years been making a specialty of Evergreens. We have more than 150 acres of these Trees alone, and a stock that includes almost 300 varieties.

As this catalog is not distributed until late in the Autumn season, itemized lists of different Evergreens we have are omitted. Persons desiring this type of tree should see our Spring 1916 Wholesale Catalog for prices and sizes. Persons contemplating Autumn purchases of Evergreens will do well to send us their lists for prices.

Block of Norway Maples at our Nurseries. The best grade of 3 to 4 in, trees listed below will come from this block,

# Deciduous Trees. Acer: The Maples.

 $\begin{array}{ccccc} \mbox{Acer campestre.} & \mbox{European Cork Maple.} & \mbox{A} \\ & \mbox{splendid low} & \mbox{branched tree suitable for} \end{array}$ screen Flanting. Can also be used as a hedge.

T. cordata; syn. Ulmifolia. A small leaved European variety which develops into a densely branched specimen. The green color of the leaves is retained better than many other Lindens. Because the price is low does not mean that they are of inferior quality. In fact they are quite the reverse, but we have a surplus to sell this season. It's your opportunity.

A street planting of our American Elms at Lynchburg, Va. The trees when planted were 1% to 2 inches in diameter of trunk and have made this wonderful growth and splendid appearance in four seasons.

Lindens and Elms are among the best for street and avenue planting. The Lindens are attractive for their straight growth and symmetrical outline. The Elms for their graceful arching habits. Cities and towns have been made famons for their wonderful old Elms which overarch their streets. We are offering, this year, a wonderfully vigorous and shapely stock of both these varieties.

A shrubbery planting made with stock from our Nurseries.

Deutzia Fride of Rochester. The flowers of this variety are beautifully tinted with pink. In manner of growth it is similar to all the varieties of Deutzia Scabra.

Dwarf Deutzias are some of the most useful and crimmental shrubs we have. The stock of all varieties listed in the column above are as fine as we have ever grown.

"Many a man intensely practical in his own business will give his order to the lowest bidder among competing nurserymen, and waste years looking at sickly, struggling or dying trees, shrubs and perennials about his home, rather than invest a little more money and get satisfaction and joy from the start. Poor stock is dear at any price."—Neltze Blanchan in "The American Flower Garden."

#### Hamamelis.

Hamamelis virginica. Witch Hazel. It is interesting as the latest of the shrubs to flower; often about Thanksgiving time.

4 to	5 ft	*0.50	4 00	30 00
5 to	6 ft	*0_60	5.00	

Note the bushy, sturdy character of these shrubs. They are average samples of most of the varieties listed throughout this catalog. Nearly all of our stock has been transplanted and cut back and is now of best quality for landscape planting.

Flowers of Hibiscus or Altheas. The stock listed below has been transplanted, is bushy and of a vigorous nature. Don't confuse it with cheap slender plants.

#### HIBISCUS SYRIACUS.

#### Althea or Rose of Sharon.

These are grand flowering shrubs. There is a wide range of color, and not a day from the middle of July until September—a time when so few other shrubs are in bloom—that Altheas are not aglow with flowers. They have no insect enemies, grow well anywhere, are splendidly suited for shrubbery borders, for colony planting and hedges.

#### Regals Privet.

A hedge of Regals Privet supplied by us and growing in a section where the California Privet is not hardy.

Ligustrum Ibota, var. regelianum. Notice in the illustration what a beautiful hedge plant this is. Equally well suited for shrubbery borders and planting about the foundation of buildings. Its graceful drooping habit makes it a most useful shrub. Much more hardy than the California Privet. The stock here offered is of the true variety, having been grown from cuttings rather than from seed.

# Spirea.

The Spireas include a great variation in flower and foliage effects. No. 1 represents the type of flowers produced by the varieties Van Houttei and Reevesiana. No. 2 is the old-fashioned Bridal Wreath. No. 3. Flowers of this type are borne by varieties Billardi. Billardi alba, Douglasi, Salicifolia and Tomentosa. They differ in color. No. 4 represents flowers of varieties Bumaida and Anthony Waterer.

S. argentea; syn. canescens. Panicles of white bloom. Useful in the lower and wilder portions of the lawn.

2 to 3 ft...... 0 20 1 50 12 00

S. arguta. Small white flowers in Spring.

Borne in great profusion, Quite hardy
and one of the best early Spireas.

S. Billardi; syn. Californica. Dense spikes of pink flowers in July and August. Very showy and excellent for cut flowers during the Summer months.

var. alba. White flowers; otherwise like the preceding.

S. Bumalda. Rosy pink flat flower heads.

var. Anthony Waterer. Crimson flower heads all Summer.

var. Walluf. Flowers are darker color than Anthony Waterer, similar otherwise.

S. callosa. A good dwarf shrub bearing white flowers in the early part of the Summer. Suitable for foundation or other low plantings.

S. carpinifolia. White spikes of bloom. A tall variety suited for natural landscapes.

A. Ptarmica fl. pl. "The Pearl." 2 ft. White and double. July. Price, \*10 cents each; 75 cents per ten; \$6.00 per 100.

Aegopodium podagraria variegata. Goutweed. Price, \*12 cents each; \$1.00 per 10; \$8.00 per 100.

Agrostemma coronaria. Mullein Pink. Bright crimson. June to August. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

A. Flos Jovis. Crimson. June to July. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

A. Hybrid Walkerii. Rose crimson. July to August. Price, \*20 cents each; \$1.50 per 10; \$12.00 per 100.

Alyssum saxatile, var. compactum. Golden Tuft. 1 ft. April and May. Yellow. Price, \*10 cents each; 75 cents per ten; \$6.00 per 100

Amsonia Tabernæmontana. Spikes of blue flowers. June. Price, \*12 cents each; \$1.00 per 10; \$8.00 per 100.

Anemone Japonica, var. alba. Pure white flowers. Price, \*12 cents each; \$1.00 per 10; \$8.00 per 100.

var. Queen Charlotte. Silvery pink. Price, \*12 cents each; \$1.00 per 10; \$8.00 per 100.

Aquilegia Californica hybrid. Yellow tinted with orange. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

A. Coerulea. Rocky Mountain Columbine. Blue and white. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

A. Flabellata nana alba. 1 to 1½ ft. Large, white flowers. April to May. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

A. glandulosa. Blue Siberian Columbine. Large lilac blue. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

A. Helenæ. Blue with white corolla. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

A. nivea grandiflora. Large, pure white. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

A. Vulgaris. European Columbine. Red, blue and purple. May to June. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

var. alba. Double pure white. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

Arabis alpina. Rock Cress. White. April and May. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

var. Nana Compacta. Pure white flowers. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

Armeria formosa. 1 ft. Pink and white flowers all Summer. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

A. maritima. 3 to 6 in. Pink flowers in May and June. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

var. splendens. Large flowers like the above. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

Artemesia vulgaris. Mugwort. 3 ft. Valuable for its attractive foliage. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

Asclepias Tuberose. Butterfly Weed. 2 ft. Large orange colored flowers in July and August. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

Aster Gertrude. Dwarf-growing. Flesh pink. Price, \*12 cents each; \$1.00 per 10.

A. grandiflora.  $2\frac{1}{2}$  to 3 ft. Dark violet. A late bloomer. Price, \*15 cents each; \$1.25 per 10; \$10.00 per 100.

A. Novæ Anglæ. Violet purple. Price, \*12 cents each; \$1.00 per 10; \$8.00 per 100.

A. Perennial. A strain of assorted colors in purple and lilac shades. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

A. Robert Parker. 2½ to 3 ft. Lavender blue. Price, \*12 cents each; \$1.00 per 10; \$8.00 per 100.

A. Tatarica. Lavender, yellow stamens. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

Astilbe Japonica. White. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

A. Lemoinei Pyramidalis. White. May. Price, 15 cents each; \$1.25 per 10.

A. Multiflora Compacta. White. Price, \*15 cents each; \$1.25 per 10.

Aubretia Deltoides. Profusion of purple flowers. Price, \*12 cents each; \$1.00 per 10; \$8.00 per 100.

Bellis perennis. English Daisy.

var. Giant Rose. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

var. The Bride. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

Bccconia cordata. Plume Poppy. 6 to 8 ft. Creamy white terminal panicles. July and August. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

Boltonia latisquama. Light lilac pink. Price, \*15 cents each; \$1.25 per 10; \$10.00 per 100. var. Nana. Dwarf, beautiful pink flowers. Price, \*12 cents each; \$1.00 per 10; \$8.00 per 100.

Campanula carpatica. Carpathian Harebell. Clear blue flowers. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

var. alba. White. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

C. Latifolia Macrantha. Large drooping bells of a fine satiny-lilac and deep purple shades. Price, \*12 cents each; \$1.00 per 10; \$8.00 per 100.

C. medium. Canterbury Bells. 3 ft. June and July. Various colors. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

var. Calycanthema. Cup and Saucer Canterbury Bells. 2 ft. Shades of pink, blue and white. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

C. persicifolia grandiflora. Double white flowers. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

C. pyramidalis. Chimney Bell Flower. 5 ft. Blue flowers. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

C. Rapunculoides. 3 ft. Blue. June to August. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

C. trachelium. Coventry Bells. 3 ft. Purple flowers from June to August. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

Caryopteris mastacanthus. Blue Spirea or Verbena Shrub. 1½ to 2 ft. Wealth of blue flowers. September to frost. Price, \*12 cents each; \$1.00 per 10; \$8.00 per 100.

Centaurea Dealbata. Large rose-colored showy flowers. Price, \*15 cents each; \$1.25 per 10; \$10.00 per 100.

C. Montana. 2 ft. Blue flowers. July to September. Price, \*15 cents each; \$1.25 per 10.

var. alba. Pure white. Price, \*15 cents each; \$1.25 per 10.

var. rosea, Pink flowers. Price, \*15 cents each; \$1.25 per 10.

Cerastium tomentosum. "Snow-in-Summer." 10 in. June and July. White flowers. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

A Perennial Garden in which our plants have been used. Designed by Olmsted Bros., Landscape Architects.

# Hardy Chrysanthemums.

Prices for all varieties, except where otherwise noted are \*10 cents each; 75 cents per 10; \$6.00 per 100.

# Hardy Button Chrysanthemums.

Brown Bessie. Brown and yellow. Eagle d'Or. Clear yellow. Golden Pheasant. Golden yellow.

Lysimachia Clethroids. Pure white. Flowers July to September. 2 ft. Price, \*20 cents each; \$1.50 per 10.

L. nummularia. Creeping Jenny. A ground cover with good green foliage and yellow flowers. Price, \*10 cents each; 75 cents per 10.

Lythrum roseum superbum. Rose Loose Strife. Pink flowers. July to September. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

Monardia didyma splendens. Bergamot. Scarlet. July and August. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

M. didyma violacea. Light violet red. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

Myosotis Alpestris Robusta Gdfl. Flowers a little larger than the Forget-me-not. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

M. Palustris semperflorens. Forget-me-not. Pale blue. All Summer. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

Oenothera Fraseri. 1½ ft. Beautiful rich yellow. Price, \*12 cents each; \$1.00 per 10.

Oe. fruticosa major. 1½ ft. A wealth of yellow flowers. Mid-summer. Price, \*12 cents each; \$1.06 per 10; \$8.00 per 100.

Oe. Biennis grandiflora. 3 ft. Yellow. July and August. Price, \*12 cents each; \$1.00 per 10; \$8.00 per 100.

Oe. speciosa.  $1\frac{1}{2}$  ft. Large white flowers. Price, \*12 cents each; \$1.00 per 10.

# Red Flowering Pæonies.

Atrorubra Plena. Medium size. Color is beautiful, darker than tyrian red with a texture like satin. Plant is dwarf, medium bloomer. Early mid-season. Price, \*35 cents each; \$3.00 per 10.

Augustin d'Hour. Medium to large. A light violet red. Strong, medium good bloomer. Slightly fragrant. Mid-season. Price, \*60 cents each; \$5.00 per 10.

Delachei. Medium size. One of the most beautiful and darkest of the red varieties, a very dark rose red with a slight purple tinge. Vigorous grower, upright habit, free bloomer with red stems. No odor. Mid-season. Price, \*60 cents each; \$5.00 per 10.

Felix Crousse. Exceptionally perfect in form and color. A clear, brilliant red suggesting that of a jack-rose. One of the finest red varieties. Fragrant. Strong and vigorous. Free mid-season bloomer. Price, \*60 cents each; \$5.00 per 10.

**L'EcJatante.** Large and compact. A brilliant rich rose red. Odor slightly unpleasant. The plant is strong and a medium bloomer. Midseason. Price, \*40 cents each; \$3.50 per 10.

Louis Van Houttei. Medium size. Very loose in structure, showing yellow stamens when in full bloom. A rich rose red. Fragrance variable. A good bloomer. Mid-season. Price, \*40 cents each; \$3.50 per 10.

Rubra Triumphans. Large globular flowers, loose and open in structure. Dark garnet in color, displaying in contrast prominent yellow stamens. A strong grower. Price, \*40 cents each; \$3.50 per 10.

Tenuifolia fl. pl. Small and full. The coloring is attractive and brilliant, a true lustrous carmine. A distinct variety because of its very dwarf habit of growth and finely cut fern-like foliage. The earliest paeony to bloom, and charming for the gardens of May. Price, \*35 cents each; \$3.00 per 10.

Officinalis Rubra. Medium size. Color is very brilliant, a tone deeper than tyrian red with a luster like satin. Very early. Price, \*25 cents each; \$2.00 per 10.

# Pink Flowering Pæonies.

Albert Crousse. Large, full and compact. The coloring is like that of a delicate pink rose and is uniform throughout. One of the most beautiful lighter pink varieties. Blooming habit free. Stems long and stout. Excellent for cutting. Fragrant. Mid-season to late. Price, \*75 cents each; \$6.00 per 10.

Insignis. Medium size. The ball like crown is pale pink, shading to cream on the tips and edges of the petals. The guards are large and of a deep tyrian pink. Very showy for land-scape effects. A profuse bloomer, slightly fragrant. Mid-season. Price, \*Extra large clumps, 80 cents each; \$6.50 per 10.

La Superba. Large. The color of the guards is a deep satiny rose, that of the crown is several tones lighter, fading gradually to a pale salmon. Free bloomer. Mid-season. Price. \*25 cents each; \$2.00 per 10.

La Tulipe. A large flower, beautifully set on a long, straight stalk. The color is a clear, uniform pale lilac pink, sometimes penciled with carmine on the outer petals and buds. Vigorous grower. Fragrant. Mid-season. Price, \*35 cents each; \$3.00 per 10.

Madame Ducel. Medium to large, with guard and crown petals distinctly differentiated. Large cerise guards surround a paler crown with a distinct salmon tinge. A vigorous grower and free bloomer. Fragrant. Early to mid-season. Price, \*35 cents each; \$3.00 per 10.

Mons. Jules Elie. Medium size, Guards are a pale rose pink surrounding a cream colored crown slightly tinged with pink. Medium height, medium strong, free bloomer. Late. Price, \*35 cents each; \$3.00 per 10.

Scuvenir de L'Exposition Universelle. Very large, flat and full. A brilliant and very deep rose pink approaching the tyrian. Slightly silver tipped. One of the best deep pinks. A good grower and bloomer. Habit spreading. Fragrant. Mid-season, Price, \*35 cents each; \$3.00 per 10.

Red flowering Paeonies-(Continued).

Triumphe de L'Exposition de Lille. Large and compact. A rarely beautiful flower of a pale rose pink, with buds and guard petals minutely splashed with carmine. Vigorous, strong grower. Free bloomer. Fragrant. Midseason. Price, \*60 cents each; \$5.00 per 10.

Officinalis Rosea. Medium size, globular. A very brilliant and glossy deep rose pink approaching a tyrian rose in color. Low to medium growing, vigorous, medium bloomer. Odor lacking. Very early. Price, \*25 cents each; \$2.00 per 10.

# White and Light Pink Flowering Varieties.

Candidissima. Full center, medium size. Large pure white guards with a center of palest sulphur yellow. Slightly fragrant. A free bloomer. Early. Price, \*35 cents each; \$3.00 per 10.

Duchesse de Nemours (Calot). Medium size. Center is tinted with a pale lemon yellow with guards of purest white. Handsome, fragrant; a very free bloomer. Early to mid-season. Price, \*30 cents each; \$2.50 per 10.

Festiva Maxima. Very large, very double and full. The guard petals are a faint pink when opening, fading later to white, the center is tinted cream and prominently flecked with carmine. A tall, vigorous grower with large, handsome foliage. Exceedingly popular because of its great beauty and delightful fragrance. Season early to comparatively late. Price, \*35 cents each; \$3.00 per 10.

White Flowering Paeonies-(Continued).

Madame Calot. Large and handsome. The center is palest pink and cream white; the guards are a light cameo-pink. The general effect of the bloom is of white, tinted with splashes of pink. Vigorous grower, free bloomer. Fragrant. Mid-season. Price, \*60 cents each; \$5.00 per 10.

Madame Coste. Medium to large. Center a yellowish cream fading to cream white, flecked with carmine; guard petals a very pale pink. A good bloomer. Fragrant and attractive. Early. Price, \*35 cents each; \$3.00 per 10.

Queen Victoria (Kelway). Large and rather loose. Color is very beautiful in palest tones of pink and yellow, fading to cream white. Strong, free bloomer and fragrant. Leaves extra large and dark. Late. Price, \*35 cents each; \$3.00 per 10.

S. Odora. Low growing. Bright golden yellow. August and September. Price, \*10 cents each; 80 cents per 10.

S. Rigida. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

Spirea Aruncus. Goat's Beard. 3 to 5 ft. White. June and July. Price, \*12 cents each; \$1.00 per 10; \$8.00 per 100.

Statice latifolia. Sea Lavender. Delicate lavender flowers. All Summer. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

Stokesia Cyanea. Cornflower Aster. 1½ to 2 ft. Blue. August and September. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

Thalictrum Adiantifolium. Beautiful foliage resembling Maidenhair Fern. Greenish yellow flowers. Price, 12 cents each; \$1.00 per 10; \$8.00 per 100.

var. Glaucum; syn. Speciosum. 2 to 4 ft. Yellow flowers. June and July. Beautiful foliage. Price, \*12 cents each; \$1.00 per 10; \$8.90 per 100.

Thermopsis Carolina. 3 to 4 ft. June. Spikes of pea-shaped yellow fragrant flowers. Price, \*12 cents each; \$1.00 per 10.

Thymus Serphyllum. White Mountain Thyme. Low rockery plant. White flowers, dark green foliage. Price, \*10 cents each; 80 cents per 10.

T. Vulgaris. Common Green Thyme. Lilac colored flowers. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

Tradescantia Virginica. Spider Wort. Purple. Early Summer. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

Tritoma Pfitzerii. Everblooming Flame Flower or Red Hot Poker. 3 to 4 ft. Orange-scarlet flowers from August to October. Price, \*20 cents each; \$1.50 per 10.

Tunica saxifraga. Minute pinkish-white flowers. All Summer. Price, \*10 cents each; 80 cents per 10.

Valeriana Coccinea. 2 ft. high. Bright red flowers during Summer months. Price, \*12 cents each; \$1.00 per 10; \$8.00 per 100.

Veronica Longifolia Subsessilis. Speedwell. 2 ft. Blue. July and August. Price, \*15 cents each; \$1.25 per 10; \$10.00 per 100.

V. Spicata. Deep blue flowers in August and September. Price, \*10 cents each; 75 cents per 10; \$6.00 per 100.

Viola Cornuta. Blue Perfection. Attractive blue flowers. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

var. Lutea Spiendens. Yellow flowers. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

var. White Perfection. White flowers. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

V. Palmata Cucullata. Native Violet. Price, \*10 cents each; 80 cents per 10; \$7.00 per 100.

# Ornamental Reeds and Grasses.

## Arundo.

Arundo Donax. Giant Reed. Grows 8 to 10 ft. Price, \*20 cents each; \$1.50 per 10.

## Erianthus.

Erianthus Ravennæ. Plume Grass or Hardy Pampus. Price, \*20 cents each; \$1.50 per 10.

## Eulalia.

Eulalia Japonica; syn. Miscanthus sinensis. 5 to 6 ft. Broad green leaves. Price, \*15 cents each; \$1.25 per 10; \$10.00 per 100.

var. gracillima. Japan Rush. 5 to 6 ft. Narrow green leaves with white mid-rib. Price, \*15 cents each; \$1.25 per 10; \$10.00 per 100.

var. variegata. 4 to 5 ft. Leaves striped with white. Price, \*15 cents each; \$1.25 per 10; \$10.00 per 100.

var. Zebrina. Striped. 4 to 5 ft. Price, \*15 cents each; \$1.25 per 10; \$10.00 per 100.

Phalaris Arundinacea Variegata. Variegated Ribbon Grass. Price, \*15 cents each; \$1.25 per 10

The plumes of Eulalia. These ripen in the Fall and last nearly all Winter.

# A Bit of History About the Moon Nurseries

NE Hundred and Forty-nine years ago the Moon Nursery Industry was established in America. Such a long and continuous succession of nursery

endeavor, we believe, is not equalled by any other nursery. In 1767 James Moon, (great-great-grandfather of the President of our Company) was engaged in selling fruit trees at one shilling each. The location of his nursery was but seven miles distant from the land we now occupy.

Each succeeding generation have been tree growers. The advent of improved methods of distribution enabled Mahlon Moon, in 1849, to establish at Morrisville nurseries in a more extensive way than had been possible earlier. The nursery established by Mahlon Moon was

continued by Samuel C. Moon until his death in 1911, after which it was purchased by this Company and for a time operated separately, but amalgamated with it in 1913.

The Glenwood Nursery, or the original nursery of this Company, was established in 1872 by William H. Moon, who in 1890 organized the company that at present

bears his name.

This little bit of history we believe will be interesting to many. We are, however, aware that such a lineage means nothing to our patrons unless the business, as at present managed, has profited by all this accumulated experience and is in a better position, on account of it, to serve its patrons.

That The Wm. H. Moon Company is in a position to meet customers' wants, because of this experience and the energy still going into the business every day from a number of active young men employed, we believe is apparent to all to whom we are

known. To those unacquainted it will be seen we are not content with the reputation of our ancestry, as new varieties and up-to-date methods are constantly being added.

A pear tree from James Moon's nursery in 1776 and still bearing fruit 140 years later. This is one of the trees covered by the accompanying copy of invoice, showing its cost to have been one shilling.

Sales of trees are recorded in James Moon's account book nine years earlier than this entry, which is shown because it covers the tree pictured above. The currency used was that of England, which circulated in "The Colonies" during the Revolutionary years in which these early sales of trees were made. The nursery of James Moon was probably the first in America. Each succeeding generation have been nurserymen.

# Suggestive List of Varieties to Solve Your Planting Problems

In response to a repeated demand for suggestive lists of varieties suited for certain places and purposes we have prepared this index. It does not contain all the varieties suited for the purposes named, and there are, doubtless, instances in which some of the trees and shrubbery enumerated will not be found suited for the purpose specified, due to climatic, soil or other conditions which have to be taken into consideration in selecting each planting.

We are at all times ready to help our patrons with more detailed suggestions to solve their particular problems.

### Avenue and Suburban Planting-

#### Trees for

American Elm. European Lindens. Horse Chestnut. Norway Maples. Oriental Plane. Pin Oak. Sugar Maple. Western Catalpa.

### Banks and Terraces—Some Vines for Retaining

Engleman's Ivy. Honeysuckles. Matrimony Vine. Wichuriana Rose and its varieties.

#### Bright-Berried Shrubs.

Barberries.
Choke Berry.
Coral Berry.
Cornelian Cherry.
Cotoneaster.
Euonymus, Cork-barked.
European Mountain Ash.
Thorns.
High Bush Cranberry.
Honeysuckles.
Ilex Verticillata.
Spice Bush.
Regel's Privet.
Snowberry.

# Dry and Shallow Soils—Plants for Shrubs.

Aralia Pentaphylla, Fragrant Bush Honeysuckle, Great Panicled Hydrangea. Japanese Bush Honeysuckle. Barberries, Mock Orange, Privets. Sumac or Rhus. Viburnum Lantana.

### Trees.

Ash-leaved Maple, Catalpas, Fraxinus or Ash, Mulberries, Poplars, Sugar Maple,

### Flowering Trees.

Black Locust, Crab Apples, Dogwoods, Hawthorns, Horse Chestnut, Magnolias, Varnish Tree, Western Catalpa, Yellow Wood,

### Ground Covers.

English Ivy.
Euonymus Radicans.
Japanese Spurge.
Mountain Pink.
Periwinkle.
Stonecrop.
Yellow Root.

#### Hedge Plants.

#### Evergreens.

American Arborvitæ.
Compact Arborvitæ.
Parson's Compact Arborvitæ.
Boxwood.
Golden Retinospora.
Green Retinospora.
Japanese Euonymus.
Hemlock.
Norway Spruce.
White Spruce.

### Deciduous.

Altheas.
Deutzias.
Great Panicled Hydrangeas.
Japan Barberry.
Privets.
Tamarix

#### Rapid Growing, Inexpensive Trees for Quick Results.

Ailanthus, American Ash, Ash-leaved Maple, Carolina Poplar, Lombardy Poplar, Oriental Plane, Western Catalpa, Willows.

### Moist Places-Some Plants for

### Evergreens.

American Arborvitæ, Austrian Pine. Hemlock.

### Deciduous.

Alders.
Bald Cypress.
Red or Water Birch.
Red Maple.
Silver Maple.
Sweet Gum.
Willows.

### Shrubs

Button Bush, Douglas Spirea, Elders, Osier Dogwoods, Spice Bush, Willow-leaved Spirea, Witch Hazel,

### Seashore Planting-Plants for

This list is not advocated for ocean-front planting, about which we invite correspondence.

### Evergreens.

American Holly, Japanese Euonymus, Japanese Holly, Pines, Red Cedar, White Spruce,

### Deciduous.

Ailanthus.
Catalpas.
Chinese Cork Tree.
Japanese Maples.
Mulberry.
Oriental Plane.
Oaks.
Poplars.
Siberian Maples.

#### Shrubs.

Altheas.
Golden-leaved Elders.
Hydrangeas.
Privets.
Spice Bush.
Tamarisk.

# Shady Places-Some Plants Toler-

ant of Partially

#### Evergreens.

Abies or Firs. Taxus or Yews. Tsuga or Hemlock.

#### Evergreen Shrubs.

Andromeda, Azaleas, Boxwood, Mahonias, Euonymus, Mountain Laurel, Ilex or Holly, Rhododendrons.

#### Deciduous Shrubs.

Aralia Pentaphylla.
Azaleas,
Dogwoods.
Elder.
Forsythias.
Honeysuckles, Shrubs.
Japan Maples.
Barberry, Japanese.
Mock Orange.
Privets.
St. John's Wort.
Viburnums.
Yellow Root.

### Vines.

English Ivy. Honeysuckles. Periwinkle.

# Street Trees for the City.

Ailanthus. Ginkgo. Norway Maple. Oriental Plane. Poplars, Carolina. Red Oak.

### Windbreaks — Trees Especially

## Adapted for

## Evergreens.

American Arborvitæ. Norway Spruce. Pyramidal Arborvitæ. Scotch Pine. White Pine. White Spruce.

### Deciduous.

European Cork Maple. European Beech. Hornbeam. Purple Beech.

# The Way to Plant a Tree

- No. 1. A piece of burlap or canvas should be spread over the grass, so that the dirt from the holes may be thrown upon it.
- No. 2. Holes must be made so large that the roots may be spread out naturally without cramping. See also No. 6.
- No. 3. Dig holes larger in circumference at the bottom than at the top to prevent water laying about the roots.
- No. 4. Good, fertile top-soil must be used about the roots. If the tree is to be planted in impoverished ground, good soil should be provided for it.
- No. 5. Plant a tree just as deeply as it stood in the nursery row. This depth is very easily determined by the dirt line always shown at the bottom of the trunk. Failure to plant in accordance with this rule probably results in the loss of more trees than any other cause.
- **No. 6.** Lay the roots out naturally and cut off all the broken or bruised parts. See also No. 2.
- No. 7. Be sure to press earth firmly about the roots, especially about the crown (where the arrow points), so that every particle of the roots will be embedded in compacted soil.
- No. 8. A tamping stick may be used to work the soil firmly about the roots. With small trees and plants the dirt will settle firmly if the plant is gently lifted up and down, when the hole is half filled, so that the dirt will work its way between the roots. Just before filling in all the dirt press it firmly. Be sure that the dirt is well compacted, excepting three or four inches at the top of the hole, which should be loosened by occasional cultivation.
- No. 9. If buds have begun to swell at time of planting or if the ground is dry, watering when the hole has been three-quarters filled will not only moisten the roots but help settle the soil firmly about them. Should drought ensue afterwards, occasional watering will be necessary until the tree becomes established; watering is, however, frequently overdone, and death from this cause occurs to trees and plants almost as frequently as from neglect to water.
- No. 10. Trim broken or bruised branches, also two-thirds of the previous year's growth; because the roots in their disturbed condition cannot at the outset nourish as large a top growth as before they

were disturbed by moving. Marks among the branches of the diagram show where this tree should be trimmed.

- No. 11. It is often best not to trim the leader or central stem, as a forked tree may result. Hardwood trees, like the oak and beech especially, should not have their central leader trimmed.
- No. 12. If the tree is large or in an especially exposed place where winds may loosen it, support it with wires and provide some protection where the wires come in contact with the tree trunk. A piece of burlap, with a few sticks, is useful to prevent the wires chafing the tree where they come in contact with it.
- No. 13. After planting, it is better to leave a cultivated area about the tree than to sod close to it. This cultivated area should be from three to five feet in diameter.
- No. 14. Fertilizer, in the form of stable manure or compost, may be used but should not come in direct contact with the roots. A mulch applied after the planting is usually the best way to supply this fertilizer, as it then also acts to conserve the moisture.
